the stories of southern brigadier generals during the revolutionary war remain largely forgotten or untold but their experiences were unique during the war 13 of the 58 brigadier generals the lowest ranking generals who served under george washington died because of combat wounds or under british captivity seven of those 13 hailed from the southernmost and excepting virginia less populated colonies proportionally they were more likely to become casualties or prisoners than were their northern counterparts and they were far more likely than were the more senior major generals only one of whom died during the war out of 28 total officers this book profiles the 18 southern brigadier generals and their service during the american revolution it makes the case that washington and his brigadier generals especially the southern brigadiers won the war in spite of the major generals many of whom exhibited cowardice alcoholism insubordination womanizing or ineffective leadership more than half of the major generals were effectively cashiered or voluntarily left military service long before yorktown and the war s conclusion the author demonstrates that as much as benjamin franklin thomas jefferson alexander hamilton and other politicians the war s brigadier generals should be viewed as founding fathers too
